Report of Principal and School Improvement Council

Baptist Hill High School's administration, faculty, and staff continue to work collaboratively with parents and the community to implement and improve programs that will ensure student success. Our students' test scores are steadily improving, and our 2007 state report card absolute rating was below average for the first time.

Our Ninth Grade Academy helped our freshmen adjust to the rigors of high school by grouping them in a small learning community with single-gender classes. All ninth grade students were enrolled in Freshman Seminar, which provided instruction in study skills, character development, and career exploration and also provided support for the transition to high school.

We expanded intervention strategies for students who are struggling academically and will continue to offer additional academic support through our HSAP lab, after-school programs, and extended learning opportunities. Assistance in these programs was tailored to students' individual needs based on data from benchmark and MAP tests. Our extended learning sessions provided small group instruction in HSAP and End of Course test preparation, SAT preparation, and college and career exploration.

Team planning time was provided during the school day to allow teachers to study and collaborate as members of professional learning communities. Professional development for teachers focused on strategies for active learning, differentiated instruction, and reading across the curriculum. With the assistance of specialists from the South Carolina State Department of Education, teachers engaged in frequent data analysis and collaborative instructional planning.

While we are proud of our accomplishments, we realize that there are still many challenges we must meet. We continue to seek solutions to the barriers that are slowing our progress. We will continue our efforts to improve our graduation rate, longitudinal exit exam passage rate, SAT scores, and our students' performance on state assessments. We must address the poor reading levels of our students, increase parent involvement, reduce the dropout rate, and recruit and retain highly qualified teachers. We are confident that, together, we can face these challenges and implement strategies that will ensure academic success for our students.

Joel Warren, School Improvement Council Chairperson
