REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

Burke High School has made considerable gains during the 2007 - 2008 school year. There has been a school and community-wide effort to revitalize the PTSA and move the school to a Parent and Student Learning Community, where the parents and students are involved and engaged in the day-to-day extracurricular and academic environment of the school.

The instructional environment of the school has taken on a new appeal to the instructors and students by implementing rigorous instruction and professional development strategies. This school term, teachers were committed to participating in Teacher Curriculum Teams that met weekly to advance student learning and achievement. The core values of student learning and achievement were addressed in the Professional Learning Communities, which met weekly and were devoted to increasing rigor in the classroom and providing academic support.

The academic environment of the school was invigorated by implementing an intensive weekly High School Assessment Program (HSAP) Academic and Preparation push, where students were committed to working as a learning community to prepare for the high-stakes examination.

The Academics Plus Academy has moved to the center of academic achievement and has fostered a learning stream of students who have been challenged to prepare for growing changes in a global society that expects individuals to achieve at higher levels.

As the school climate grows and matures, the partnership with the College of Charleston and other community-driven initiatives have enhanced the graduation rate and the school's ability to empower students at Burke High School.
