REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

Just as McCormick County is a rural community, located amidst natural gold mines, McCormick Middle School is filled with natural educational promise. Although we did not meet Adequate Yearly Progress on the 2007 State of SC School Report Card as we had in 2006, we are pleased that our absolute rating moved from an unsatisfactory status to below average. While we are not where we want to be, we are moving forward to meet our educational goals. Our faculty and staff have worked diligently during the 2007-2008 school year to ensure that we continue to achieve the progress we desire for our students.

This year our staff embarked upon focused staff development, based on brain research and utilizing differentiated instruction to meet the individual needs of each learner. Additionally, teachers focused on the achievement data available through MAP (Measures of Academic Progress) testing and individual student score data to improve classroom instruction. McCormick Middle School faculty and staff are dedicated to unearthing the gold nuggets of knowledge that can be found within each student.

While gold miners need the proper tools to discover their riches, so do our students. McCormick Middle School has implemented technology-rich programs to provide these tools to assist each learner with adequate skills and accelerated development. The "Academy of Reading" and "Academy of Math" are exemplary AutoSkill computer programs that were initiated this year. "Study Island" is a web-based computer program that enhanced instruction through skill-development games and is accessible through students' homes. The installation of ceiling mounted LCD projectors in every academic classroom and SMART boards at each grade level has further integrated technology into the learning environment.

Our students continue to shine like gold with an ever-increasing number receiving academic, attendance, and behavioral awards. Twelve percent of our students were present every day of the 2007-2008 school year. We celebrate our students' many successes with ceremonies, performances, exhibits, athletic events, parties, dances, and field trips. Parents and community members, too, are supporting the positive efforts of our students by attending events in increasing numbers, from our First Day of School celebration event to our end-of-the-year Family Fun Day.

An after-school program, "academy" time during the regular school day, and the new summer enrichment program give all students an opportunity to receive additional assistance with assignments, projects, and instruction. As a Making Middle Grades Work site, key practices of "extra help and time" along with "high expectations" give every student additional support. Volunteers, mentors, and tutors further assisted students with individual needs. One volunteer donated over one thousand hours of service during this school year alone. The education of our students is indeed a team effort, and our team has proudly mined lots of golden treasure throughout this school year!
