Report of Principal and School Improvement Council

During the 2008-2009 school year we have seen student gains on MAP, DIBELS, and other academic progress monitoring devices. We are very encouraged by the positive improvement in academics and behavior. Students have set academic goals and most are meeting them. Interventions are in place for students who did not meet their goals.

The School Redesign process brought the school and community closer together as we fought to remain open. It is often through difficult times that entities learn to appreciate each other more. Our volunteers have come out in force to support students as mentors, as tutors in the after-school program, and as coaches in athletics. In each area our students have been able to shine.

Students have been motivated throughout the year by the new technology in place. Teachers have used the technology in classroom instruction and students have participated as well as completed projects using it.

While we are excited about our gains, we know we still have "frontiers to conquer". We will be working during the 2009-2010 school year on asking higher order questions, improving academic vocabulary, bringing math facts to a level of automaticity, and continuing to add rigor through writing.

Come visit and share in our teaching and learning adventures.
