REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

The year 2008-2009 was another exciting year at Alice Drive Elementary (ADE)! We started the year with a school-wide project on learning about the Northern Right whale which calves off the coast of South Carolina and the legislative process to have the whale named the South Carolina Sea Mammal. Every grade level was involved in the research while selected students in grades 3, 4, and 5 met with our state senator to learn about the legislative process to share with the rest of the school. After a long campaign, the Right whale was named the South Carolina Migratory Sea Mammal.

We were very pleased with the increase in test scores which resulted in ADE receiving the Palmetto Silver Award from the State Department of Education. ADE was also awarded Picturing America, a free education resource of the National Endowment for the humanities distributed in cooperation with the American Library Association.

As an indicator of the quality of our faculty, one of our teachers was named Outstanding Alumni from USC Upstate while three others were added to our list of National Board Certified Teachers.

Students were recognized for their achievements as well. The Student Council continued its leadership by helping both the school and community. This group led our school in a canned food drive, collections for families at Christmas, funding for Zig the Pig, cancer research for children in South Carolina, and sponsored drug and alcohol awareness during Red Ribbon Week. The Green Team, our environmental club, sponsored several recycling drives from calendars to old tennis shoes to help lessen ADE's carbon imprint on the environment. Six of our students were named to the South Carolina Honors Choir and performed with other honorees at the South Carolina Music Educators Conference in February.

Through the efforts of our PTA and SIC, special activities for students, workshops for parents, and additional avenues for stakeholders to gain ownership in ADE evolved through the dedicated efforts of active volunteers and parents.

ADE diligently has pursued its mission to provide a positive school environment and provide developmentally appropriate learning experiences for all our students. Incorporation of programs such as READ 180, Accelerated Reader, Classworks, literacy groups, Reading Recovery, math manipulatives, classroom science projects, as well as other strategies, has provided all students a chance to learn and grow academically. Field trips to local and nearby venues have expanded our students' learning experiences. We strive to make ADE a place where everyone feels welcome and where everyone can become a part of our community.
