SC PERFORMANCE GOAL

2010 Goal:

By 2010, SC's student achievement will be ranked in the top half of the states nationally. To achieve this goal, we must become one of the fastest improving systems in the country.

2020 Vision:

By 2020 all students will graduate with the knowledge and skills necessary to compete successfully in the global economy, participate in a democratic society and contribute positively as members of families and communities.

REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

With each passing year at CHS, things continue to get better! Credit recovery, online test prep, and new strategies in the classroom allow CHS to excel in many areas. We are looking forward to having access to a literacy coach on a full-time basis in 2009-2010. Emphasis on reading and literacy in all areas has already increased our success rate across the curriculum. Once again, our graduating seniors were offered more "per dollar" scholarships than ever. This is a reflection of the rising percentage of our students who plan to pursue higher levels of education.

The Guidance Department and our Career Development Specialist presented career-cluster meetings again this year, and many of our students are actively pursuing information because of these meetings. This program will be continued and expanded. Our Guidance Department is also providing assistance to students in test-taking strategies for success on ACT, SAT, and PSAT. We are also adding new courses to our curriculum to include forensics, astronomy, media communications, music appreciation, music theory, sports medicine, college readiness, and survival French. We are also redesigning our curriculum to implement the High Schools that Work program to maximize student achievement and success on an academic, economic, and social level. As the economy changes, we must also change some of our approaches in preparing our students for the workforce and their future.

Once again, our Beta Club has won state recognition on a local and state level. Our athletic program has been expanded to include a wrestling team, and all teams competed in state playoffs, with our baseball team winning the region title and going to state playoffs. Palmetto Gold and Silver recognition was earned based on our improvement. These rewards were earned based on high levels of student academic achievement and for our efforts that resulted in exemplary improvement. Once again, our AYP (Annual Yearly Performance) ratings continued to climb.

As we start our new school year, we will also be growing physically. We will add one science teacher and two ROTC instructors to our staff. At the front of the building, a new wing will be added to house teacher and administrative offices. At the back of the main building, an auditorium, an ROTC facility, a chorus and a drama area, and new art accommodations will be added. While we still have some classrooms in outside buildings, we are making progress with our building situation.

Our challenges and goals remain the same: to make sure each student achieves success at Chesnee High School. We will continue efforts to lower our dropout rate. We need to increase our attendance rate and our exit-exam passing rate. These are areas that have shown improvement but still need our attention. As other schools in South Carolina, we are continuing to raise our educational standards and our performance by emphasizing the necessity of a solid high school education as our students enter the job market.
