Report of Director and School Improvement Council

The 2009-2010 school year has continued to be a difficult one financially, but we at Golden Strip Career and Technology Center have continued to do what needs to be done to educate our students. We have had to streamline our budget but we continue to have high expectations for our students, rigor in our coursework, and a curriculum with high standards. This year, our school enrollment increased 12 percent.

The curriculum at Golden Strip Career and Technology Center is a challenging one. In addition to our regular program of study, our students have the opportunity to earn dual credit or articulation at a local technical college. We also have programs for our occupational diploma students that will give them the opportunity to enter some of our regular courses. For 2010/2011, we are adding two new courses to our curriculum – Sports Medicine, and Emergency Medical Services. Success for every student is what we believe.

Golden Strip Career and Technology Center has developed partnerships with local businesses and organizations to give authentic learning experiences to our students through cooperative learning, job shadowing, summer internships, and field trips. Although we offer several industry certifications, we are increasing our offerings to give our students the knowledge and experiences they need to compete in a global workplace. We also offer opportunities for students to participate in SkillsUSA, Health Occupation Student Association (HOSA), Distributive Education Clubs of America (DECA), and Future Farmers of America (FFA) to develop their soft skills. For the third year in a row, 100% of our students were enrolled in co-curricula organizations.

The success of our school is due to our partnerships with all of our stakeholders. We have dedicated students, cooperative feeder schools, supportive parents, and a hard working School Improvement Council.

At Golden Strip Career and Technology Center, we are positive about teaching and learning. We truly believe that all students can learn and that all students can be successful.
