District Superintendent's Report

In the 2009-2010 school year, Lee County Schools continued its quest to "Grow in the Right Direction." The school year can best be described as a year of great accomplishments by our students, faculty members, schools, and district. In spite of more than \$3.1 million in state budget cuts over the last two years, the district's faculty and staff have delivered the same quality educational services in a safe and orderly environment as in the past. Our students have excelled in all areas of our school programs. From academics to athletics, fine arts to community service, a culture of excellence permeates our school system.

We are proud to say that all of our schools and the district are accredited through the Southern Association of Colleges and Schools Council on Accreditation and School Improvement (SACS-CASI) and the South Carolina Department of Education. The district continues to experience improvement in many areas. The results of the district's measures of success on PASS, HSAP, and EOC, indicate that the district has been improving in many grade levels and subject areas tested. The County School Board of Trustees' mission is to ensure advancement in student achievement by both a strong system of accountability and required resources.

The district continues to implement strategies, programs, and accountability measures to ensure the attainment of the adopted goals as well as make difficult decision of selective abandonment of less effective strategies and programs. These goals focus on securing and allocating adequate financial resources to accomplish the mission of our district, increase student achievement in all areas, decrease the number of students identified for special education, and increase the number of students enrolled in Gifted and Talented courses and Dual or Advanced Placement courses. We also continue to focus on an increased graduation rate and providing a safe and orderly school culture.

The district continues to link professional development to school, district, and personal goals; support and expand professional learning communities; and expand and strengthen action research as a way to respond to assessed student needs. The district continues to use MAP and other formative assessments to help craft instruction. We continue to seek additional funding sources to supplement instruction and increase student achievement. The district continues to develop quality curricula and professional development for all grade levels and subject areas. The curriculum guides and other support documents continue to be reviewed and updated regularly. Homework centers and/or afterschool tutorial programs are available at all schools.

The district continues its efforts to upgrade all facilities. The district has just completed the first year of a new district middle school with state-of-the-art technology. We welcome the input and support of our parents and community stakeholders in helping us to achieve our mission of educating our children. You are invited to visit our schools to observe us and to assist us in our work. You are encouraged to review the information contained in this year's report cards and, if you have any questions, please feel free to contact the principal or me. Thank you for your continued cooperation and support.

Dr. Cleo F. Richardson, Superintendent
Ms. Sanya Moses, Board Chair
