REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

The faculty, students, and staff of St. James-Santee Elementary School have consistently strived for excellence in all facets of school life, from academics to sports, from the arts to technology, from academic competitions to citizenship. Despite our academic growth and successes, St. James-Santee Elementary students, parents, teachers, and administration sought ways to improve our entire program throughout the year in a quest for excellence.

St. James-Santee Elementary School is a rural school on the northern boundary of Charleston County. We are located in beautiful McClellanville, South Carolina, and we are surrounded by the Francis Marion National Forrest. Our school is known for its high-quality teachers, small class sizes, and ability to personalize learning to meet the needs of each individual student.

St. James-Santee Elementary School focuses on maintaining a professional collaborative culture and making data-based decisions to improve student achievement. Our school collected, correlated, and disaggregated data to make informed decisions about student achievement. More importantly, we took great pride in our small size and made every decision with the best interest of each individual student in mind.

We have worked diligently to provide opportunities for our students to be more engaged in reading, writing, and speaking. We successfully completed our first ever Reading Marathon as a method to reach the district's goal of each student reading 25 books per year.

Our school has begun implementing the PBIS model. Our students are prepared to be more responsible, respectful, reliable, and ready. This year we also added a comprehensive academic intervention program. Students who were ahead or below of their grade level academically were enrolled in a separate class to meet their particular academic needs.

St. James-Santee Elementary School has made solid academic progress over the past few years despite many challenges. We are confident that our student-centered and data-driven approach to student learning yielded strong results as indicated by this year's MAP testing.

Our school has always been committed to the students, families, and the community we serve. With growing and active parent organizations, we hope that all of our stakeholders will continue to be involved in the lives of our students as they reach for new heights in the coming years.
