REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

In serving young adolescent students, Castle Heights Middle School recognizes the unique academic and developmental needs of those students. The school seeks to promote high levels of academic growth while designing instructional opportunities that strongly engage middle level learners.

The instructional staff at Castle Heights works collaboratively to provide these learning opportunities. An example of this collaboration has been the creation of curriculum maps and common assessments for each grade-level content area. There has also been the collaborative creation, with input from students and parents, of a schoolwide grading policy. Another example is the combined effort and planning of content teachers and special education teachers to provide grade level instruction for all students, as well as the effort of team teachers and elective teachers to provide integration of content. A program designed to meet the needs of students identified as gifted and talented continues to become established, as does a period of enrichment for all students to review and expand academic skills. The school students and staff continue to have an interest in a wide variety of cultural events, career orientation opportunities, and literacy and fine arts projects.

Castle Heights operates on a system of beliefs which stresses the learning capabilities of all students and the importance of the interconnected efforts of staff, parents, and the community to provide a safe and effective environment of high expectations for and developmental understanding of our middle level students.
