REPORT OF DIRECTOR AND SCHOOL IMPROVEMENT COUNCIL

We believe that there should be a vital link between the career center and business and industry. Communication is the link that must be the strongest if we are to get input from businesses and industry, and in turn provide the type training that is relevant to their needs. The career center must maintain close liaison with the community, the public schools and the students it serves. We further believe that career and technology education should be accessible to all students in the high schools we serve, and that career classes should be representative of the total population. We believe that everyone wants to feel pride in his/her profession, and have a sense of success and self-esteem. Continuous efforts are made to prepare students to be personally responsible for the direction of their lives and careers, and to enter the adult world as responsible, productive citizens. Levi Keith II, Principal - Amanda Bryant, SIC Chairperson
