## Report of Principal and School Improvement Council

Fork Shoals School is an International Baccalaureate (IB) School that educates the whole child through a collaborative effort of home, school, and community. Student inquiry is the core of our philosophy where the children take hold of their learning to gain knowledge. Our School Improvement Council, Parent Teacher Association, and Fork Shoals faculty strive to provide academic rigor as well as develop our children in to responsible citizens.

Fork Shoals Schools has developed three goals to work towards over the next five years. We will raise the academic challenge and performance of each student in math and reading as measured by the Palmetto Assessment of State Standards, and we will provide a school environment supportive of learning as rated by parents, teachers, and students on the state report card survey. Our goals are directly related to the district wide emphasis of raising the academic challenge and performance for each student. We will measure these goals by evaluating student work, test scores, and analyzing parent, student, and teacher surveys.

Fork Shoals School has been an authorized International Baccalaureate School since 2005. We implement the Primary Years Programme (PYP) through inquiry-based instruction. Our mission is to provide a world-class culture of inquiry and to nurture each student's desire to be a continuous learner and a responsible citizen. The school strives towards this goal by developing integrated units of study throughout the year using a project-based approach. Students are the center of the instruction as each child keeps a portfolio, sets a goal and conferences with their parent yearly. Every student receives Spanish Instruction with 3rd-5th graders having daily immersed lessons. The school believes this approach will develop well-rounded, internationally-minded, knowledgeable children.

Technology is an integral part of Fork Shoals School. Interactive whiteboards are in every classroom. Five rolling laptop labs along with two full computer labs are used for students to research and pursue their inquiries. Students take virtual field trips using Distance Education equipment throughout the year to places like Ellis Island, NASA, and the Botanical Gardens in Nova Scotia. The children interact with immigrants, astronauts, and botanists. The school uses Compass Learning reading and math software to meet individual needs of students based on their instructional level. Students access an on-line reading comprehension program called accelerated reader. The teachers and students use handheld devices called ActivExpressions and ActivVotes in the classroom to enhance their learning experiences. Technology will continue to be a focus at Fork Shoals School.

Fork Shoals School is unique, combining high academic expectations with problem solving skills while also developing more culturally aware, educationally empowered students. The school is progressing and will continue to progress toward providing our students with a world-class education.
