REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

TEAM LMES was the theme for 2010-2011 at Lake Murray Elementary. Many activities supported our theme and vision of "ensuring learning for all" as students, staff, and parents worked together.

To make our vision a reality, grade level/content Professional Learning Communities (PLCs) were established. Collaboration about instruction within our PLCs was our major staff development for the year. Each PLC chose an area of focus based on a review of previous years' MAP and PASS data. Throughout the year, PLC members discussed instructional practices that were successful in helping students achieve at high levels. Teachers created lists of essential skills to be mastered and then developed, administered, and discussed results of common assessments based on these skills/standards. All students benefited as teachers improved their classroom instruction based on what worked as shown in assessment results.

Teachers and administrators also collaborated regarding the progress and needs of students. Following review of data and discussion with teachers, additional help was provided to support student learning. Struggling students were placed in intervention based on their targeted need. Students were served in Reading, Writing, and Math through WIN (What I Need) Time, tutoring groups, one-on-one instruction, computer assisted instruction and homework support. During Guided Reading, first, second and third grade classrooms were provided additional support for small group instruction. In fourth grade, an inclusion model, where the resource teacher team taught with the classroom teacher, provided instructional support. Leveled Literacy Intervention, Signs for Sounds, and Reading Recovery also assisted students in reaching target goals.

To meet the needs of high achieving students, AGP math classes in fourth and fifth grades used challenging supplementary materials (Mentoring Mathematical Minds); third grade AGP students were served in a pull-out/enrichment model; and all second grade students received instruction in Brain Boosters, which emphasized thinking skills.

Accompanying the strong focus on academic achievement was an emphasis on the arts and physical activity. Students' artistic talents were showcased in PTO programs, school strings and chorus performances, talent shows, and art displays within the school and across the community. A highlight of the year was a combined performance of patriotic music presented in the spring by LMES chorus and students along with students from a neighborhood pre-school and senior citizens from the Lowman Home. Other arts connections included chorus and strings performances within the community and tone chimes performances with residents of the Lowman Home. To emphasize fitness, school staff and students participated in the first annual Dam Walk, Jump Rope for Heart, Walking Clubs, and our second annual PTO/ PE Fitness Run.

Through working as a team, our year has been successful as shown through our school's academic achievement and the overall accomplishments of our students. We look forward to future years of continuing the excellence of our school.
