REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

In 1954, long before the phrase "early intervention" was coined, Dr. Leslie Meyer established the Meyer Center. It was a time when children with "disabilities" were essentially cast away by society, but Dr. Meyer saw "abilities." He realized that each and every child, regardless of his or her medical challenges, could learn. Every child, in his eyes, held real potential.

Today, as a Greenville County Charter School, the Mission, Vision, Values and Goals of the Meyer Center continue to be based on Dr. Meyer's belief that intensive education and therapy provided at the earliest possible age gives a child with disabilities the best chance to make progress. Generally, students that receive direct services at the Center are children that have been diagnosed with a condition affecting their motor development such as cerebral palsy, spina bifida or genetic syndrome. The Center also provides support services for families including individual and group support, coordination of community services, school transition assistance and transportation

Referrals to the Meyer Center are made by a wide spectrum of community agencies and private sources such as BabyNet; Center for Pediatric Medicine; Center for Developmental Services; medical practitioners or parents. The primary goal of the program is to provide early intervention services so a child might gain or improve his/her cognitive, functional, gross motor, fine motor, communication, self-help and/or activities of daily living skills. This is accomplished by providing developmental experiences necessary for learning; teaching skills pertinent to a child's developmental age for increased growth; providing an environment that fosters sensitivity and respect for individual differences and developing individual education goals with parents.

During school year 2010-11, a team of 7 teachers, 14 paraprofessionals, 5 physical therapists, 5 occupational therapists, 4 speech therapists and 1 music therapist provided a comprehensive range of developmental services to 50 students ranging in ages 3-7. Year after year, children attending the Center's early childhood education program consistently exceed IEP mastery scores. In May 2011 Meyer Center students with completed IEP's achieved an average of 80% of their annual education goals and 73% of their annual therapy goals, and a record high number of 28 students transitioned into other early childhood or elementary education programs.

Over the past 50 years, the Meyer Center has taken a leadership role in community collaboration and the provision of quality services to young children with disabilities. Ultimately, students benefit from the combined efforts of the community, as they leave the Center and successfully transition into other schools or community settings.
