REPORT OF SUPERINTENDENT

Greenville County Schools is a county-wide, unified school district located in the Upstate of South Carolina, and covering more than 800 square miles with 51 elementary schools, 18 middle schools, 14 high schools, and 25 special schools, programs, and child development centers. The District covers all of Greenville County and parts of Laurens and Anderson counties, and with a student-population of more than 70,000, ranks as the 49th largest district in the nation. It is a district that provides all students with school choice opportunities, which results in 14% of its students attending a school other than the one to which they are assigned. This population is driven in part by a thriving magnet schools program; a Fine Arts Center; The Charles Townes Gifted Center; four International Baccalaureate Programs; flourishing vocational centers; and AJ Whittenberg Elementary, the only fully integrated elementary engineering school in the State. Over the course of the last decade, the district has completed a \$1 billion building program that resulted in over 70 new or renovated school buildings and tremendous district-wide advancements in instructional technology and technological infrastructure improvements. Greenville County Schools is a leader in integrating technology into the classroom for the purposes of engaging students, enhancing instruction, and equipping students with 21st century skills. Decision making in the district is based upon an Education Plan that was developed with input from teachers, administrators, staff, students, parents, and community members. This plan identifies five goals as central to the mission of the district. Strategic initiatives developed in support of these five goals are updated and implemented on an annual basis. Goal one of the Education Plan is increased student achievement, and serves as the primary goal of the district. The other four goals "ensure quality personnel in all positions, provide a school environment supportive of learning, effectively manage and further develop financial resources, and improve public understanding and support of public schools" are important based on their ability to support and enhance goal one. As a result of the districts commitment to increasing student achievement, alternative programs are offered at the middle and high school levels to students who are not successful in the traditional school setting, and two STAR Academies, which provide a unique instructional setting that enables overage middle school students to accelerate their achievement and graduate with their peers has been highly successful since its inception. The district also offers Virtual School, Twilight School, and credit recovery options that help students in need of additional assistance to stay on track and earn a diploma. Programs such as High Schools That Work, Making Middle Grades Work, MAP Formative Assessments, Balanced Literacy, and the Learning Focused Model serve to help all Greenville County students achieve academic success. Greenville County Schools is also home to Washington Center, a school that serves moderately to severely mentally and physically disabled students ages 5-21, most of whom have concurrent challenges such as blindness and deafness. The result of the districts focus on learning has been an overall steady increase in the markers used to define success, including SAT, ACT, the results of the States PASS testing, performance on nationally-normed tests such as ITBS, and the graduation rate. For more information on Greenville County Schools, visit www.greenville.k12.sc.us.
