## Report of Principal and School Improvement Council

Saluda Trail Middle School has completed our sixth and final year as a School of Choice International Baccalaureate Middle School. Because of our success in the MYP curriculum, we are able to add to our program offerings for our future students. We will move into a new adventure as a Magnet S.T.E.M. (Science, Technology, Engineering, and Math) School for the 2012-2013 school year. We have worked this school year to write units of study for STEM and visited many schools to gain insight for this change. Saluda Trail will continue to provide quality and engaging work for students using methods from Working on the Work (WOW). Our character development, units of study, professional development, and classroom instruction will revolve around STEM, inquiry-based instruction and project/problem-based instruction. Many new technology classes have been added this year in preparation for our upcoming STEM initiative. Our School Improvement Council helped with writing grants and visiting schools with us. Over \$55,000 in grants have been written this school year by the teachers at Saluda Trail Middle School. Saluda Trail has once again enjoyed a record year in academics and athletics. One sixth grade team won the state e-Cybermission championship. Our Robotics Team went to the state level even though this was their first year. A record number of students qualified for the state and national levels for National History Day for their outstanding projects. In athletics, the eighth grade boys' and girls' basketball teams were undefeated and were regional champs. The softball team won their division and tournament season championships.

## ESEA/Federal Accountability Rating System

In July 2012, the South Carolina Department of Education was granted a waiver from several accountability requirements of the federal Elementary and Secondary Education Act (ESEA). This waiver allowed SC to replace the former pass/fail system with one that utilizes more of the statewide assessments already in place and combine these subject area results with graduation rate (in high schools) to determine if each school met the target or made progress toward the target. This analysis results in a letter grade for the school rather than the pass/fail system of previous years. For a detailed review of the matrix for each school and districts that determined the letter grade, please use the following link: <http://ed.sc.gov/data/esea/> or request this information from your child's district or school.
