REPORT OF SUPERINTENDENT

District Seven has a tremendous legacy of high performance and a rich history of creating opportunities for academic excellence at every stage of a child's development. Tradition, Excellence, and Innovation continued to define District Seven during a school year marked with success.

We celebrated another year of tremendous accomplishment as a result of the caliber of our students, the support of our parents, and the dedication and commitment of our board, faculty, staff and administration. The district continued to strive for unmatched excellence in academics, athletics, activities, and the arts. In academics, two schools earned a Palmetto Gold award for outstanding academic achievement. Spartanburg High School had two students named National Merit Finalists, one National Achievement Finalist, 92 AP Scholars, and five National AP Scholars. The school earned a place in the Washington Post and U.S. News and World Report ratings as one the nation's best high schools in the country; and the Class of 2013 amassed a record high \$18.4 million dollars in merit-based scholarships. SHS earned the state's Magna Cum Laude Achievement Award for SAT performance, and the AP program has the highest number of AP courses taught in the state. In athletics, SHS earned the Herald Journal's General Excellence Award for team and individual accomplishments including state and region titles. In activities and the arts, students gained local, state, and national recognition for participation and excellence in performance.

In the coming year, District 7 will provide a technologically rich environment that will provide global access to educational resources and information, foster critical thinking skills and creativity through digital technology, provide a medium for collaboration, and prepare our students for tomorrow's world. The district continues to push the envelope as it embarks on an ambitious digital conversion. The fully implemented digital conversion will put MacBook Air laptops in the hands of all middle and high school students and give iPads to elementary students in third, fourth and fifth grades. By providing equitable access to every child, we will all but erase the digital divide and truly level the academic and information-access playing field.

The philosophy of this district and everyone in it is "to ensure a maximum educational experience for all students so that they will learn to think and apply the knowledge and skills necessary to become successful, productive citizens." We understand this requires involvement and support from parents/guardians and the community. District 7 is a wonderful place to live, and the support given to our schools is unsurpassed. Our board remains focused on what is best for students, and it's not possible to work with a staff more dedicated to meeting the needs of young people.

Dr. Russell W. Booker, Superintendent
