Report of Principal and School Improvement Council

Pendergrass-Fairwold School serves medically fragile and severely mentally and physically disabled students from ages three to twenty-one who require a structured educational environment which will help them maximize physical ability, self-help skills and life skills and consequently facilitate their adjustment to community living. We also provide services for students ages to 18 to 21 that require significant supportive programming to transition from school to work or from school to independent living. All students receive educational and related services according to their Individual Education Plan (IEP) and are monitored for progress according to the guidelines of their individual IEP.

In our continued effort to improve the quality of instruction, teachers have attended professional development sessions with regular education teachers to gain a more in-depth understanding of Common Core State Standards. In keeping with this goal, all certified staff participated in an eight-week examination of the book, *Aligning IEPs to the Common Core State Standards for Students With Moderate and Severe Disabilities*. Time was allotted in teachers' schedule for weekly common planning. During that time, teachers discussed data as related to IEP objectives and progress reports as well as feedback given from classroom observations. Teachers were trained on a new curriculum, the Unique Learning System, which is designed for moderately to severely disabled students. This curriculum will be implemented during the upcoming school year.

Our students have continued to work diligently this school year. They were engaged in many activities that simulate realistic experiences which they will encounter upon transitioning into the community. Students volunteered three days per week at Palmetto Baptist Hospital and monthly at Harvest Hope Food Bank. They acquired job-readiness skills while working in the school's workshop performing activities such as recycling and packaging.

We are in the process of devising a new school improvement plan which will continue to make our teaching strategies and outcomes more transparent to our parents and shareholders.

ESEA/Federal Accountability Rating System

In July 2013, the South Carolina Department of Education was granted a waiver from several accountability requirements of the federal Elementary and Secondary Education Act (ESEA). This waiver allowed SC to replace the former pass/fail system with one that utilizes more of the statewide assessments already in place and combine these subject area results with graduation rate (in high schools) to determine if each school met the target or made progress toward the target. This analysis results in a letter grade for the school rather than the pass/fail system of previous years. For a detailed review of the matrix for each school and districts that determined the letter grade, please use the following link: <http://ed.sc.gov/data/esea/> or request this information from your child's district or school.
