Report of Principal and School Improvement Council

Jesse S. Bobo Elementary School is extremely proud of the 2012-2013 school year. Together, staff, parents, and students, determined and worked towards a goal of renewing and fostering our relationships as a school community. This included a strong emphasis on having an active School Improvement Council and PTO. Additionally, we wanted to form new partnerships with local businesses. Together, these efforts led to well attended events such as special programs, Movie Night, Earning for Learning events, and our school carnival.

Beginning the school year with the knowledge that we had made Adequate Yearly Progress (AYP) the following year, meeting all 17 state required performance objectives, we continued to place a high importance on student achievement. This included a thorough study of current practices and related changes when needed. We continued to utilize technology and high-interest teaching practices to engage our students. We have already identified opportunities for future growth and secured professional development for the upcoming school year. As a community, we are envisioning the best ways to utilize our many strengths including our computer lab, Media Center, summer school, and after school program.

As we reflect on the 2012-2013 school year, we are proud of our past efforts and hopeful about our future plans. We are grateful to our parents and local business community for their significant support. Together, we believe that we will make great strides towards our mission to provide a rigorous curriculum that will enable all students to be independent learners.

ESEA/Federal Accountability Rating System

In July 2013, the South Carolina Department of Education was granted a waiver from several accountability requirements of the federal Elementary and Secondary Education Act (ESEA). This waiver allowed SC to replace the former pass/fail system with one that utilizes more of the statewide assessments already in place and combine these subject area results with graduation rate (in high schools) to determine if each school met the target or made progress toward the target. This analysis results in a letter grade for the school rather than the pass/fail system of previous years. For a detailed review of the matrix for each school and districts that determined the letter grade, please use the following link: <http://ed.sc.gov/data/esea/> or request this information from your child's district or school.
