Percent satisfied with school-home relations	100%	96.3%	87.8%

\*Only students at the highest elementary school grade level at this school and their parents were included.

## REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

The mission of Mountain View Elementary in cooperation with the community is to provide a safe, positive environment where children build skills, knowledge, and character needed for lifelong learning. Mountain View Elementary is a warm, community centered school steeped in rich tradition. We have received the Red Carpet Award three times, which honors schools that provide warm, friendly environments where people not only are welcomed but also are made to feel part of the school family. We are the first school in Greenville County to be a three time award winner. Mountain View values not only customer service, but safety for every child. We have received the Safe Schools award six times.

Our faculty members participate in many worthwhile professional development opportunities including the pursuit of advanced degrees, technology training, and Project Read training. Project Read is the uniform delivery system for Language Arts instruction. All teachers are fully trained in strategies and implementation in the areas of phonics, written expression, and reading comprehension. We will begin Fountas and Pinnell training for balanced literacy in the upcoming school year to further enhance our reading program. Nine teachers currently have National Board certification.

Our Professional Development School partnership with North Greenville University continues to grow and strengthen as we support interns, members of our faculty serve on the NGU Advisory Council, and our PDS committee works to commit our mission and goals to a written document. We also offer many opportunities for students to develop leadership skills and to take part in service learning.

We continue to maintain the school portfolio. The portfolio is a working document that is updated annually. The purpose of the portfolio is to create a clear picture of who we are and how we go about the business of educating children. The portfolio contains information about our school demographics, our current programs, our partnerships with business and community, and test score data. We can use these data to evaluate programs and policies and assess their effectiveness.

In the fall of 2012 our school underwent a complete refresh of our technological hardware. With the upgraded resources, we continue to advance both teacher and student technology proficiency. We ensure technology is integrated into all areas of instruction. It is used as a major means of communication.

Jennifer Gibson, Principal  
Mr. Donny Kauffman, SIC Committee Chairperson
