ESEA composite index score	68.6	Down from 88.0	90.9	88.0

* Length of contract = 185+ days.

** Prior year audited financial data available.

EVALUATION RESULTS

	Teachers	Students*	Parents*
Number of surveys returned	39	100	47
Percent satisfied with learning environment	87.2%	83%	89.4%
Percent satisfied with social and physical environment	89.7%	87%	83%
Percent satisfied with school-home relations	82.1%	86%	76.6%

*Only students at the highest elementary school grade level at this school and their parents were included.

Comprehensive detail, including definitions of ratings, performance criteria, and explanations of status, is available on www.ed.sc.gov and www.eoc.sc.gov as well as school and school district websites.

Printed versions are available from school districts upon request.

REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

Red Bank Elementary School continues to make strides in the implementation of competency-based, personalized learning. Stakeholders realize the importance of requiring that students become proficient at one level before moving to a new level of learning. Students are aware of the learning targets, and this transparency of expectations motivates students to master one level before moving to the next.

A major step supporting the competency-based approach has been the use of a standards-based report card. Each student has a personalized report card that communicates exactly where he is working and the level of progress he is making. Students understand the language of learning as emerging, developing, proficient or advanced.

Students use academic language when describing their learning because they have analyzed the standards for learning and know exactly where they are working. This culture of learning is centered in collaboration, communication, critical thinking and creativity. A learning management system individualizes each student's learning plan. Through this system, students are able to remain aware of their progress, work on assignments, take assessments and communicate.

One of the challenges facing our students and staff is the availability of technology. In a personalized system, students need access to their learning dashboard whenever they are ready to work. Since the work is competency-based rather than time-based, it is important that students have constant access to devices so that they can work at their individual pace.

Another challenge that affects learning is the attendance of our students. We have worked with students and their parents through individual conferences, attendance contracts and support agencies in order to improve the chronic tardy and absence patterns of some of our students. This continues to impact our students' ability to learn.

Our students have shown good progress on standardized testing on Measures of Academic Progress (MAP) with 64% of students meeting their learning targets in English language arts and 59% meeting their targets in mathematics. The national average for both subjects is 50% of students meeting those targets.

In addition to core academics, our school has earned recognition as a Green Steps school, received a Farm to School grant and established a school garden maintained by a student garden club. Our First Lego League and 4-H Club students have received awards for their achievements. The Special Olympics Fan Club and Unified Team has received both state and national recognition.

We are proud of the progress our students are making toward self-directed, individualized learning. We expect to continue to improve as we further implement personalized learning.

Principal Marie Watson and SIC Chair Thomas Dandridge
