REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

Leaphart Elementary School is an Engineering Magnet School in District Five of Lexington and Richland Counties. The program at Leaphart grows each year as it includes an elementary Lego Robotics team, Pitsco Missions in the science labs, a student-run Leaphart Greenhouse, and an annual engineering conference hosted at the school. The mission of Leaphart Engineering and Arts Program (LEAP) is to inspire, challenge, and empower all students by providing a rigorous problem-solving curriculum.

As Leaphart continues to serve students in grades K-5, Literacy by Design is now partnered with units of study and the Fountas and Pinnell Word study program. All three resources are combined with Response to Intervention (RtI) to support students in our balanced literacy core instruction. Through the growth and progress of the RtI program, zero students were referred to special services for evaluation. Through the implementation of PBIS (Positive Behavior Intervention Systems), discipline referrals have decreased at Leaphart.

Engineering efforts and arts development are evident. Leaphart has partnered with Pitsco Education to steer the Engineering program. Through that partnership, Leaphart has been the featured article in two Pitsco publications and is a showcase school for Pitsco. In addition, Leaphart has hosted at least ten visits from schools across the nation. The Leaphart Greenhouse is now up and running. Students manage all aspects of the greenhouse, from determining what to plant to selling the produce at the local farmer's market. This year was the Second Annual LEAP into Thinking through Engineering conference hosted by Leaphart. This conference included more than 250 students from across the district. Leaphart's Lego Tournament Invitational has also grown from six teams in 2011-2012 to twelve teams in 2012-2013. Students use a variety of technologies to prepare for the 21st Century. This year, students were able to use 3-D printers at the conclusion of an art- and technology-infused geometry unit to turn 2-D designs into 3-D objects.

When reviewing evaluations by teachers, students, and parents concerning the learning environment at Leaphart, satisfaction grew over 45 percentage points by teachers and 34 percentage points by parents. With the completion of our renovations, parents, students, and teachers were all more satisfied with the social and physical environment. An increased satisfaction was also found with home-school relations. The Improvement Rating for Leaphart has grown from "average" to "good." The SC Palmetto Silver Award was earned by Leaphart for closing the academic achievement gap.

We appreciate the opportunity to work with your children daily. We are so proud to witness your children becoming equipped with the skills to compete successfully in a global society and economy. We recognize each day that students are engineered for excellence.

Elizabeth Alexander, SIC Chair
