Report of Principal and School Improvement Council

The close of the 2012-13 school year marks the end of our third year of implementation of our Academic Achievement Improvement Plan. This data-driven multi-phased initiative focuses on the improvement of achievement for all students while enhancing our student-centered learning environment. As a result of the collaborative effort of all stakeholders we have demonstrated remarkable improvement in the areas of student achievement, and, the enhancement of our school climate!

For the 2nd year in a row students have earned the highest scores in our District on the HSAP English (96%) and HSAP Math (91%) assessments with 91% passing both. This is an improvement of 17.8% over three years! Students also earned the highest scores in our District on the Biology and U.S. History EOC Assessments. Students met or exceeded the national college and career readiness benchmarks on the PSAT, Plan, and WorkKeys assessments. As a result of our students' ACT & SAT scores, students earned both the SAT and SAT Magna Cum Laude Awards for Excellent Performance and Rapid Improvement. Our 2012-13 SAT and ACT initial results indicate equal or greater improvement this year. Our AP students exceeded the state, national, and international mean score on their AP Exams! For the third year in a row The Washington Post honored us as one of "America's Most Challenging High Schools". It is not surprising that in just three years our SC School Report Card Absolute and Growth ratings improved from "Average" to "Excellent".

We have also worked tirelessly to improve our school climate and increase the number of students that participate in school activities. In the past three years our student activity participation has more than doubled. Our annual Student Climate Survey results document an enhanced school climate. In the past two years, bullying has been reduced by 32%! Survey results document improvement in the areas of school safety, student-teacher relationships, respect, support, & success.

Thanks to the investment in our vision and our Academic Achievement Improvement Plan by staff and students, BLHS continues to prepare students for their post-secondary experiences in a successful, caring, and meaningful way. I am so proud of our students and staff!

Respectfully submitted on behalf of the Bluffton High School Staff, Student Body, & SIC,

ESEA/Federal Accountability Rating System

In July 2013, the South Carolina Department of Education was granted a waiver from several accountability requirements of the federal Elementary and Secondary Education Act (ESEA). This waiver allowed SC to replace the former pass/fail system with one that utilizes more of the statewide assessments already in place and combine these subject area results with graduation rate (in high schools) to determine if each school met the target or made progress toward the target. This analysis results in a letter grade for the school rather than the pass/fail system of previous years. For a detailed review of the matrix for each school and districts that determined the letter grade, please use the following link: <http://ed.sc.gov/data/esea/> or request this information from your child's district or school.
