Report of Principal and School Improvement Council

The 2012-2013 school year was a very exciting one at Springfield Middle School. The primary challenges for Springfield Middle School and the Fort Mill School District are growth, diversity within our student body, and the implementation of the common core curriculum standards. Budget cuts through the years have resulted in a loss of academic support and school support positions, but we will have a part-time Literacy Specialist added this coming year to our school. Diversity with our student population continues to increase and we will continue to work on a plan to help all students with their success. We are involved in training in math and language arts related to the common core. More training will be available as we enter the 2013-2014 school year.

Our year was packed with many successes and challenges, as we attempted to provide the best education possible for our students. With the continued support of our parents and community, our school will strive to

ESEA/Federal Accountability Rating System

In July 2013, the South Carolina Department of Education was granted a waiver from several accountability requirements of the federal Elementary and Secondary Education Act (ESEA). This waiver allowed SC to replace the former pass/fail system with one that utilizes more of the statewide assessments already in place and combine these subject area results with graduation rate (in high schools) to determine if each school met the target or made progress toward the target. This analysis results in a letter grade for the school rather than the pass/fail system of previous years. For a detailed review of the matrix for each school and districts that determined the letter grade, please use the following link: <http://ed.sc.gov/data/esea/> or request this information from your child's district or school.
