District Superintendent's Report

Our teachers, students and staff are working hard to improve student achievement, and district staff continues to use our strategic plan and its research-based strategies to guide operations.

Our focus district-wide is making sure every child can read. We're also focusing on helping our teachers have professional conversations about student work, conversations that we know are important for shaping effective, consistent instruction.

We're also working hard to give teachers standards-based curriculum documents for a curriculum that supports national and state academic standards. We believe this approach offers our students the skills and knowledge they need for success.

We're continuing to work to teach to a variety of learning styles through our researched-based instructional strategies. We use Literacy By Design across the district, and we stress the importance of using math manipulatives to support math instruction.

We provide extra help for students who need additional time to master standards, use Classworks labs in elementary and middle schools, emphasize reading and writing across the curriculum and provide services for students whose primary language isn't English.

Our teachers, students and parents use MAP testing results to determine the skills students have mastered and the skills they need to improve, and we assess student progress through standardized testing.

Technology has an important role in supporting our instruction, and our Blackboard Connect calling system helps us keep parents informed about everything from report cards dates to extracurricular activities to school closings.

We strongly believe that because our parents, students, educators and community work together, we are making a positive difference in the lives and educational achievements of our students.

Superintendent Richard "Gene" Moore, Ed.D.
