Printed versions are available from school districts upon request.

REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

Nevitt Forest Community School of Innovation is a diverse neighborhood school situated within a short distance from local businesses in downtown Anderson. Nevitt Forest maintains high standards of instruction by hiring highly qualified teachers who are committed to providing effective instruction to meet the academic needs of students. Further, the staff works collaboratively to establish a welcoming learning environment for students, parents, and community partners.

The mission of Nevitt Forest Community School of Innovation is to educate and prepare each of our diverse scholars to excel in a changing global society. The three significant components necessary to achieve our mission are:

- to ensure mastery of all content areas through exemplary instruction.
- to promote and foster positive interactions with parents, local universities, and community members.
- to explore and incorporate innovative ideas and techniques throughout our distinct learning community.

Nevitt Forest houses state of the art technology in all classrooms and labs to enhance learning and prepare the students to compete in an ever changing, technologically advanced global society. Instructional engagement is enhanced through the use of multiple desktop labs, iPods, iPads, and Smart Responders. Each classroom is equipped with a Smart Board, ELMO, and LCD projector.

In partnership with AnMed, Nevitt Forest furthers the needs of students by providing an onsite medical facility. The school is staffed with a fulltime registered nurse and the medical center provides additional support by a Nurse Practitioner. This allows the school to further support the health needs of all students thus decreasing the negative impact of health related issues on achievement and attendance.

During the year, multiple opportunities are provided for parents to become active participants in their child(s) education. PTO events include a focus on literacy, math, science, and related arts so that parents are provided with meaning information which supports academic success. The school’s implementation of Positive Behavior Interventions and Supports in 2013-2014 provided an additional avenue to connect with families through positive recognition of student behavior.

It is recognized that the success of the students attending Nevitt Forest is directly correlated to effectiveness of instruction and the quality of the learning environment. The new school year will provide opportunities for reflection, improvement, and celebration as we work collectively with the students, parents, and community to provide a high quality educational program which prepares children for future success.
