

Aiken County Career and Technology Center

2455 Jefferson Davis Highway

Warrenville, SC 29851

South Carolina State Report Card

State and federal laws require public schools to release report cards to the public each year. This year, the report card has been updated to reflect changes in reporting directed by the SC Education Oversight Committee. Schools will not be rated for state accountability purposes until Fall 2017 when the state will transition to a single accountability system. The following reports student performance in school year 2014-15.

Grades:	11-12 Career Center	Principal:	William Hudson
Enrollment:	529 students	Superintendent:	Dr. Elizabeth Everitt
School Phone:	803-593-7300	Board Chair:	Mrs. Rosemary B. English

Profile of the SC Graduate

World Class Knowledge

- Rigorous standards in language arts and math for career and college readiness
- Multiple languages, science, technology, engineering, mathematics (STEM), arts and social sciences*

World Class Skills

- Creativity and innovation
- Critical thinking and problem solving
- Collaboration and teamwork
- Communication, information, media and technology
- Knowing how to learn

Life and Career Characteristics

- Integrity
- Self-direction
- Global perspective
- Perseverance
- Work ethic
- Interpersonal skills

* 21st Century core courses in Social Sciences include History, Geography, Economics, Government and Civics.

WORLD CLASS SKILLS & LIFE AND CAREER CHARACTERISTICS

Our school is helping all students develop the world class skills and life and career characteristics of the Profile of the Graduate by ...

The Aiken County Career and Technology Center is helping its students develop the world class skills and life and career characteristics of the Profile of the South Carolina Graduate by providing challenging career and technology programs that prepare students to use industry level skills and professionalism to be successful in today's college and career ready society. This year, 164 students attained four or more credits in their chosen career area in order to accomplish the completer distinction. A large percentage also earned professional certifications demonstrating skills proficiency well above readiness requirements necessary to begin careers in their selected fields of study.

Our project and career based programs have allowed our students to develop complex thinking, problem solving, collaboration, and communication skills and qualities such as integrity, responsibility, and work ethic ensuring their preparedness for a successful next step toward a rich and meaningful career in a wide range of viable job sectors. The real world and relative learning environment coupled with the hard work of students and teachers will be evident as last year's excellent graduation rate of 95% will be surpassed. This year Career Center students garnered over 170 certifications in a wide range of career fields, including the 14th consecutive year with a 100% passage rate on the state cosmetology licensing exam. Our center continued its Mock Interview night in which community business, education, and industry leaders conduct interviews with all of our students to afford them practical experience in conveying their technical know-how and demonstrating acquired soft skills. Several of these interviews were not "mock" as one employer intended to hire students. Others were so impressed; they too made job offers to students.

Our students and faculty continue to be recognized for their success. We again have career and technology student organization winners and honorees at the state and national level. ACCTC's health science instructor was named the South Carolina Association of Career and Technical Education's New Teacher of the Year. The MTU apprenticeship program is still capturing headlines across the state as well.

As this year comes to a close, we look forward to the challenges and opportunities that lie ahead. We will continue to seek out and to build relationships with community, business, industry, and education partners locally and across the state to enhance the educational experience of our students.

William Hudson
Director/Principal

Kristen Medlin
CATE Advisory Council Chair

KNOWLEDGE

ACT WorkKeys is a job skills assessment system measuring "real world" skills that employers believe are critical in the workplace. This table below shows the number of certificates at what level earned by **Career and Technology Education (CATE) completers at this Career Center**. Note that these data are self-reported by the Career Center.

In order to receive the National Career Readiness Certificate, a measure that indicates a student has the foundational workplace skills to succeed, a student must take three subtests in WorkKeys: Applied Mathematics, Reading for Information, and Locating Information.

Students can earn certificates at the Platinum, Gold, Silver, and Bronze level on WorkKeys assessments. A designation can only be earned after a student has taken the three subtests required for the National Career Readiness Certificate. The table to the right show the level score requirements for each certificate level.

Number of CATE completers at Career Center earning the National Career Readiness Certificate by Level	
Platinum	0
Gold	11
Silver	88
Bronze	43
Attempted, but no certificate earned	0

* The three core WorkKeys subtests are: Applied Mathematics, Reading for Information, and Locating Information.

Certificate Level	Level Score Requirements
Platinum	Minimum score of 6 on each of the three core subtests*
Gold	Minimum score of 5 on each of the three core subtests*
Silver	Minimum score of 4 on each of the three core subtests*
Bronze	Minimum score of 3 on each of the three core subtests*

Performance of all students at Career Center compared to State Center Average

	Technical Skill Attainment			Graduation Rate			Placement Rate		
	This Center		State Center Average %	This Center		State Center Average %	This Center		State Center Average %
	n	%		n	%		n	%	
All Students	357	94.4%	90.4%	147	98.6%	97.1%	314	96.2%	97.1%

NOTE: n=number of students on which percentage is calculated; t=number of tests taken.

Definitions of Performance Rating Terms

* Technical Skill Attainment - The percentage of students enrolled in career and technology courses at the center who earn a 2.0 or above on the final course grade.

* Graduation Rate - The percentage of 12th grade career and technology students who graduate in the spring.

* Placement Rate - The percentage of career and technology completers available for placement over a 3-year period who are actually placed in postsecondary instruction, military services, or employment. Note: these data are self-reported.

Number of students at Career Center Earning National Industry Certifications
