

State and federal laws require public schools to release report cards to the public each year. This year, the report card has been updated to reflect changes in reporting directed by the SC Education Oversight Committee. Schools will not be rated for state accountability purposes until Fall 2017 when the state will transition to a single accountability system. The following reports student performance in school year 2014-15.

WORLD CLASS SKILLS & LIFE AND CAREER CHARACTERISTICS

Our district is helping all students develop the world class skills and life and career characteristics of the Profile of the Graduate by ...

Greenwood District 52 is helping all students develop world-class skills and life and career characteristics of the profile of the South Carolina graduate by preparing our learning community for success while providing them a safe and positive learning environment. We provide such an environment through the implementation of our district vision which is "Empowering Today's Learners To Become Tomorrow's Leaders". We show this vision by pushing our students with best practices available to reach their full potential and by the rich continuous professional development of our teachers. Our teachers work extremely hard to identify effective strategies to use in the classroom. We provide for all children a curriculum based on best practices, challenging them to reach their full potential. Our teachers are provided on-going professional development to ensure that rigorous standards are taught at each grade level. Our teachers assign classroom activities that promote world class skills needed in the 21st Century workplace. Just like the business world, students participate in pairs or groups to solve problems, using their creativity and problem solving skills. Our extra-curricular activities allow students the opportunity to collaborate and work together to accomplish specific goals. Ninety Six High School students take challenging and rigorous Honors, Advanced Placement, and Dual Enrollment courses to become college – and career- ready. Our middle college program allows students the chance to receive an Associate Degree from Piedmont Technical College before receiving their high school diploma. Also, G. Frank Russell Technology Center students obtain real-world experiences of learning skills needed in specific career occupations. Our Renaissance Program allows students to learn leadership skills while improving the culture and morale of both our students and teachers. Renaissance students create ways to recognize students and teachers for academic achievement and outstanding accomplishments. In the small tight-knit Ninety Six Community, it takes all of us to work together to educate our young people. Thank you for all of your support in helping develop our future South Carolina graduates and world leaders! -- Mark Petersen

KNOWLEDGE

ACT WorkKeys is a job skills assessment system measuring "real world" skills that employers believe are critical in the workplace. The assessment is given to every South Carolina 11th grader with the exception of those eligible for alternative assessments. The assessment consists of three subtests: Applied Mathematics, Reading for Information, and Locating Information. Students can earn certificates at the Platinum, Gold, Silver, and Bronze level on WorkKeys assessments.
