

South Carolina State Report Card

State and federal laws require public schools to release report cards to the public each year. This year, the report card has been updated to reflect changes in reporting directed by the SC Education Oversight Committee. Schools will not be rated for state accountability purposes until Fall 2017 when the state will transition to a single accountability system. The following reports student performance in school year 2014-15.

WORLD CLASS SKILLS & LIFE AND CAREER CHARACTERISTICS

Our school is helping all students develop the world class skills and life and career characteristics of the Profile of the Graduate by ...

Palmetto Middle School is a recognized leader in educational excellence. In 2014-2015, we experienced more success in academics, athletics, and extra-curricular activities. Working in harmony with parents and community members we were able to guarantee a safe and nurturing learning environment where every student had an opportunity to succeed. This school year our students were fortunate enough to receive an iPad to assist in their learning as our district implemented a digital-learning initiative focused on improving both teacher instruction and student learning. Our students and staff accepted the challenge and worked beyond expectations to make this initiative successful. This initiative is just one more way we have demonstrated outstanding commitment in improving student achievement. Just like past years, we are committed to ensuring the development of each student as a lifelong learner and are pleased with the culture we have created. Every child is ensured with a challenging curriculum while at the same time, we are responding to their developmental needs. Not only are our students being educated in the core curriculum but they are also learning how to become good stewards of their community through our commitment to service learning. Once again, our students served nearly 10,000 hours of community service through programs that support our philosophy of giving back to others. What is most notable is how our entire faculty analyzes data in order to find ways to improve student learning. We are pleased with the progress our students continue making academically, socially and environmentally. Our students' results are in direct relationship to the dedication of our teachers, the parents, and the desire of each student to be their best. Palmetto Middle students will continue to grow academically as our staff implements the new Common Core State Standards for English and mathematics during the coming school year in preparation for a new state assessment, yet to be determined. Our goals are unwavering as we continue to offer quality educational programs that Palmetto Middle School students deserve and our community expects. Susan McAbee, SIC Chairperson, Barry Knight, Principal
