South Carolina State Report Card

State and federal laws require public schools to release report cards to the public each year. This year, the report card has been updated to reflect changes in reporting directed by the SC Education Oversight Committee. Schools will not be rated for state accountability purposes until Fall 2017 when the state will transition to a single accountability system. The following reports student performance in school year 2014-15.

WORLD CLASS SKILLS & LIFE AND CAREER CHARACTERISTICS

Gilbert Primary School is helping all students develop the world-class skills and life and career characteristics of the Profile of the South Carolina Graduate by weaving leadership characteristics throughout our entire learning environment. Leadership encompasses many aspects of character, and the staff at GPS helps students make connections between character, behaviors, work ethic, integrity and leadership.

In the spring of 2015, as we finished our first year as a Leader in Me (Franklin Covey) school, we found that many of our Leader in Me habits work hand-in-hand with what we want our graduates to exemplify.

This year, students had an increased opportunity to assume leadership roles. Each morning, Student Greeters welcomed students, parents and visitors to GPS. Our student Tech Team, under the direction of the technology integration specialist, created a weekly news show that spotlighted key events, students and staff, and allowed our entire student body to see learning activities taking place throughout our school.

Our Learning Commons received a makeover this year, with a new circulation desk, movable bookshelves and seating upgrades. This child-centered environment includes differentiated learning areas such as a maker-space and experimental lab. In the maker-space, students have the opportunity to be creative and innovative with a variety of materials. The collaboration among the media specialist, technology integration specialist, coaches and classroom teachers positively impacted students, as lessons were developed to promote perseverance and critical-thinking skills. Our Learning Commons also embraced student leadership as students served as Library Leaders and helped with routines in the Media Center. With the use of technology, students began gaining a global perspective as they Skyped with students and classrooms across the United States.

Using many forms of data, teachers and students were able to set goals, determine if goals were met and set a plan for moving forward. A personalized blended learning program, eSpark, was implemented to assist students in becoming more self-directed, as they use technology to meet their personal learning needs.

The implementation of the leadership report card has helped guide students as they grow their life skills. This also increased communication with parents about students and their leadership development.
