South Carolina State Report Card

State and federal laws require public schools to release report cards to the public each year. This year, the report card has been updated to reflect changes in reporting directed by the SC Education Oversight Committee. Schools will not be rated for state accountability purposes until Fall 2017 when the state will transition to a single accountability system. The following reports student performance in school year 2014-15.

WORLD CLASS SKILLS & LIFE AND CAREER CHARACTERISTICS

Our school is helping all students develop the world class skills and life and career characteristics of the Profile of the Graduate by...

The mission of John de la Howe School is to provide a safe haven for children to heal, grow, and make lasting changes through counseling, education, and a culture of care and development. Founded in 1797, John de la Howe is the oldest residential child care facility and institution in the state of South Carolina and the second oldest institution in the both North and South Carolina. Designated as a state special school, John de la Howe's L. S. Brice School serves at risk youth from the 6th to 10th grades including a Wilderness Program for middle school boys. The Agency's Junior and Senior students attend McCormick High School. The students of John de la Howe come from all over the state of South Carolina.

We accept students that have been expelled from their local school districts as a result of inappropriate behaviors in the school setting; some students have documented trauma such as death of a friend or family member, family separation, emotional, physical, and sexual abuse, and are prescribed some form of psychotropic drug.

John de la Howe's L. S. Brice School also serves as Abbeville County's Alternative School. We serve the Abbeville students in our Day program. We focus on creating a learning environment that meets the educational needs of our students. The L. S. Brice School improved instruction by forming single gender academies to reduce class size and minimize learning distractions. We use a holistic student approach to understand and overcome the student's learning deficits. John de la Howe's L. S. Brice School embraces the privilege to give the children and families of South Carolina an opportunity to live the life they want through education.
