

2014-15 Focus School – South Carolina’s ESEA / Federal Accountability System

Focus Schools are Title I Schools with the highest average performance gap between subgroups.

- To determine performance gaps, each subgroup’s performance is compared with the corresponding non-subgroup comparison group. For example, the performance of Limited English Proficient (LEP) students will be compared to the performance of non-LEP students.
- Each subgroup achievement gap difference will be calculated, averaged, and ranked to determine the Title I Schools with the highest average achievement gap.
- At least ten percent of the total Title I Schools served by the state are designated as Focus Schools.
- High schools that have had a graduation rate less than 60 percent over a number of years are included.
- Primary schools, which do not have grades that are tested by the state assessments, are not included.
