

Firstname M. Lastname 1, Grade 6

Date of Birth: mm/dd/yyyy

Student ID: 123456789012345

Test Date: Spring 2025

District: District Name

School: School Name

Fall Assign School: Fall Assign School

What Does My Child's Score Mean?

There are four levels of scores on the assessments. Achievement levels "Exceeds Expectations" and "Meets Expectations" are the state targets for all students.

Performance Levels

Does Not Meet Expectations:

The student does not meet expectations as defined by the grade-level content standards. The student needs substantial academic support to be on track for college and career readiness.

Approaches Expectations:

The student approaches expectations as defined by the grade-level content standards. The student needs additional academic support to be on track for college and career readiness.

Meets Expectations:

The student meets expectations as defined by the grade-level content standards. The student is prepared to be on track for college and career readiness.

Exceeds Expectations:

The student exceeds expectations as defined by the grade-level content standards. The student is well prepared to be on track for college and career readiness.

English Language Arts (ELA)

Scale Score – ELA Total Test	680
Scale Score – Reading	675

Scale Scores

Student raw score points have been mathematically changed to scale scores. This allows scores to be reported for all students on a consistent scale.

Your Child's ELA Test Results	
Performance Level – ELA Total Test	Exceeds
Performance Level – Reading	Exceeds
Lexile Range	700L-799L

Lexiles

Lexile ranges describe a student's level of reading achievement. Your child's Lexile measure is shown as a range between two numbers, followed by an "L."

Your child's scale score is indicated by an arrow (↓). If your child were to test again under similar circumstances, his/her score would likely remain in the following range: 668-900 for ELA total and 665-685 for Reading (Rdg) subscore.

ELA Performance Level Descriptors (PLDs)

PLDs show a progression of knowledge and skills that students are expected to have mastered across the performance levels. The following are some examples of what a typical student can do at the "exceeds expectations" achievement.

A student who scores in the "exceeds expectations" category typically can:

- Analyze how figurative language impacts mood, tone, and meaning in a variety of texts
- Determine how two or more themes are developed over the course of a literary text
- Determine how an author uses rhetoric to advance his or her perspective or purpose

How did my child perform on the ELA academic standards?

Reporting Category	Your Child's Performance		
	Low	Middle	High
Reading Literary Text			✓
Reading Informational Text	✓		
Reading (vocabulary) Across Genres		✓	
Writing (includes TDW item)		✓	
Research and Evaluating Ideas			✓

How do my child's ELA scores compare with his/her scores from previous years?

Your Child's ELA Score History						
	Grade 3	Grade 4	Grade 5	Grade 6	Grade 7	Grade 8
Scale Score	554	576	665	680		
Performance Level	Meets	Meets	Exceeds	Exceeds		

The new ELA standards were implemented and assessed for the first time in 2025. Scale scores from the previous version of the assessment are not directly comparable and are omitted here to avoid confusion.

How does my child's ELA score compare with other students?

Your Child's ELA Percentile Rank Comparisons	
South Carolina	89
Other States with Comparable Standards	59

Percentile Ranks

The table to the left shows your child's percentile ranks. A percentile rank compares your child's score to other students in a group. Percentile ranks range from 1 to 99, with 99 being the highest. The rank is the percentage of students in the comparison group who scored the same as or below your child's score. The South Carolina percentile rank compares your child's score to the scores of students in South Carolina that have taken the test this year. The "Other States with Comparable Standards" percentile rank compares your student's performance to the performance of other students in other states with comparable content standards, during a typical test administration.

Text Dependent Writing

Part of the writing test is a text-dependent writing item. The TDW requires students to read a passage and write an essay, using information from the passage to support their answer. The TDW is scored with a holistic rubric with a point range of 1 (lowest) to 4 (highest).

Your child's TDW score: 3 of 4 points

Mathematics

Scale Score – Mathematics	548
---------------------------	-----

Scale Scores

Student raw score points have been mathematically changed to scale scores. This allows scores to be reported for all students on a consistent scale.

Your Child's Mathematics Test Results	
Performance Level – Mathematics	Meets
Quantile Range	555Q-595Q

Quantiles

Quantile ranges describe a student's level of mathematics achievement. Your child's Quantile measure is shown as a range between two numbers, followed by a "Q."

Your child's scale score is indicated by an arrow (↓). If your child were to test again under similar circumstances, his/her score would likely remain in the following range: 538-558.

Mathematics Performance Level Descriptors (PLDs)

PLDs show a progression of knowledge and skills that students are expected to have mastered across the performance levels. The following are some examples of what a typical student can do at the "meets expectations" achievement level. The list of PLDs are not comprehensive and should not be used as a substitute for the complete set of South Carolina College- and Career-Ready Standards from which they are taken.

A student who scores in the "meets expectations" category typically can:

- Compute fluently with multi-digit whole numbers using all four operations
- Plot and identify ordered pairs in all four quadrants
- Solve one-step real-world and mathematical problems that involve ratios and unit rates
- Understand the relationships among different measures of center and spread

How did my child perform on the mathematics academic standards?

Earth and the Atmosphere		✓	

Interpretation of SC READY Results:

As a reminder, a single score does not provide a complete or precise measure of student achievement. When interpreting results, please take into consideration other measures of achievement.
